PROFILE

Motivated final year Software Development student with hands-on experience in React Native/ Expo, Node.js , Express.js technologies. Passionate about building functional applications, AI-driven tools, and business platforms that solve real problems. Strong in teamwork, problem-solving, and understanding both the technical and user side of systems. Seeking an internship or junior software developer role to contribute to real-world projects while growing into a versatile, impact-driven developer.

CORE SKILLS

Languages & Tools

Java • C# • SQL / MySQL • HTML • CSS • JavaScript (Basic)•React Native/Expo•GraphQL•Node.js•Express.js•Kotlin

Development

Web Applications • Database Design • System Analysis • UI/UX Principles • Debugging•App Development

Professional

Team Collaboration • Communication • Project Planning • Time Management

EDUCATION

IIE Rosebank College — *Diploma in Software Development*
2024 – Present

Relevant Modules:

Java Programming, C# Development, Web Development, Database Systems, Information Security, Human Computer Interaction, System Analysis & Design,Open Source Coding

PROJECT EXPERIENCE

Web-Based Management System

- Built a CRUD web application using HTML, CSS, JavaScript, and MySQL.
- Designed database schemas and implemented user validation.
- Improved usability using HCI principles for better user experience.

Java Desktop Application

- Developed a Java application to manage records and automate workflows.
- Focused on clean structure, testing, and debugging.
- Collaborated in a team environment following project milestones.

System Analysis Project

- Gathered requirements and translated them into technical documentation.
- Created use cases, workflows, and basic system models.
- Ensured solutions aligned with business needs.

CAREER OBJECTIVE

To secure a Software Development internship or junior role where I can apply my programming and web development skills, contribute to meaningful projects, and grow within a collaborative tech environment.
